

Lighting Research & Technology Call for Papers: Special Issue on Research in China

In recent years there has been an expansion in research of light and lighting from Chinese universities and other centres of research. To mark this, LR&T is planning a special issue of papers describing original research from Chinese researchers. In particular, we would like to promote work from those researchers new to lighting or at least new to publishing in LR&T.

Submission and Review Process

The special issue will be published in 2021. The deadline for submission of articles is 30th October 2021. All articles must, of course, be submitted to the usual process of peer review (<https://mc.manuscriptcentral.com/lrt>). Authors should specify “Lighting Research from China 2021” when submitting the articles.

The guest editor for this special issue will be Dr. Minchen (Tommy) Wei of The Hong Kong Polytechnic University. Please contact Dr Wei (minchen.wei@polyu.edu.hk) before submitting your work.
